RCSD Learning Online Course Selection
Grades 10 – 12 Form

Learning Online courses are *asynchronous* online courses. This means that students are able to work through their classes at their own pace and have flexibility as to where and when they work on their course material. All course work is completed on the computer, with the exception of the mathematics finals, which are paper and pencil exams. All course final exams will be completed on site and supervised by Learning Online.

Learning Online is continuous intake online school. Students beginning in September/ February, will be expected to complete their course by the end of the semester. Students registering in October – December and March – May will have the time equivalent to one semester to complete their Learning Online course(s). Registrations for January or June start dates will require special administrative permission.

Each course has set due date guidelines that help students pace themselves through their course. Students who fall behind the set pace of the course, will need to spend additional time working to get caught up. Although there is some flexibility, all course work must be completed by the end of the course term. Students are able to work ahead in their course work and complete the class ahead of schedule.

School based administrator's permission is required to take a Learning Online course.

As a prospective online learner, you should be informed about some of the procedures and expectations of the program. While our goal is to be closely aligned with Regina Catholic School Division's academic best practices, online learning presents some unique circumstances.
